SAN JOAQUIN RIVER CONSERVANCY

NEWS RELEASE

August 14, 2024-

San Joaquin River Conservancy Executive Officer, Kari Daniska, joined Fresno City Mayor Jerry Dyer, City Councilmember Mike Karbassi, City officials, and residents for the activation ceremony for the newly installed traffic light at the intersection of Audubon and Del Mar in Fresno.

The traffic light is the first step in slowing vehicle traffic to create safer access for pedestrians and bicyclists in the area. It also improves safe access to the San Joaquin River, Woodward Park, and the neighborhood.

The Conservancy provided funding for this project as part of the Fresno River West Eaton Trail Extension Project.
