SAN JOAQUIN RIVER CONSERVANCY

NEWS RELEASE

December 13, 2024-

On December 13, the San Joaquin River Conservancy celebrated the opening of Ball Ranch and Ledger Island, which will be operated and maintained 7 days a week by the San Joaquin River Parkway and Conservation Trust.

Ball Ranch and Ledger Island offers many low impact recreational activities including hiking, biking, horseback riding, and wildlife viewing and appreciation.

Additionally, visitors can enjoy the 142-foot-by-135-foot log egret maze, created by Conservancy Staff member Cheryl Moxley, located adjacent to the main parking lot.

“Opening Ball Ranch and Ledger Island to the community underscores our commitment to making the San Joaquin River Parkway accessible to all” said the Conservancy’s Executive Officer, Kari Daniska.
